Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Bellermann (202) 470-6453 on May 24, 2010.

The following claim(s) are amended;

16. (Currently Amended) A non-transitory computer-readable medium having stored thereon instructions to be executed by that, when executed cause one or more processors to:

store a second plurality of data transmission rates in a register, wherein the rates of the second plurality of data transmission rates are greater than the rates of the first plurality of data transmission rates and wherein each of the second plurality of data transmission rates are spaced from each other by a second incremental value that is greater than the first incremental value;

store a third plurality of data transmission rates in a register, wherein the rates of the third plurality of data transmission rates are greater than the rates of the second plurality of data transmission rates and wherein each of the third plurality of data transmission rates are spaced from each other by a third incremental value greater than the second incremental value,

wherein the second incremental value is at least three times larger than the first incremental value, and wherein the third incremental value is at least ten times larger than the first incremental value;

receive a request to transmit data over a port of a switch at a requested transmission rate;

select one of the first plurality of data transmission rates or one of the second data transmission rates or one of the third data transmission rates at which to transmit data over the port, wherein the selected transmission rate is based on the requested transmission rate; and

transmit data through the port using the selected data transmission rate.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Claims 1, 8, 9 and 16 are allowed.

The prior art fails to disclose storing a first, second and third plurality of data transmission rates in a register, wherein each of the first plurality of data transmission rates are spaced from each other by **a first incremental value** and the second plurality of data transmission rates are spaced from each other **by a second incremental value** that is greater than the first incremental value and the third plurality of transmission rates is spaced a third incremental value greater than the second incremental value, wherein the second incremental value is at least **three times larger** than the first incremental value, and wherein **the third incremental value is at least ten times larger than the first incremental value**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
